- Creativity
- Teamwork

## LANGUAGES

- Ukrainian (Native)
- Russian - C1
- English - A2
- Estonian - A2

## ABOUT ME

I am a Junior Full-Stack Developer with strong skills in HTML, CSS and JavaScript, basic knowledge of PHP and Python, and experience working with MySQL and MongoDB, including creating and connecting databases to web applications.

I develop websites and small web applications from initial concept and design to a working prototype, paying attention to structure, user experience and code quality.

I work with Figma and Pixso, creating clean and intuitive interface designs and enjoy combining development with UI/UX design.

I am actively developing my skills and open to internships or first commercial projects to gain practical experience in full-stack development and solve real-world tasks.

## PERSONAL QUALITIES

- **Communication:** able to communicate effectively with colleagues and clients, which contributes to successful project completion.
- **Responsibility:** open to constructive feedback and always strive to complete tasks on time while maintaining high quality standards.
- **Adaptability:** learn new technologies and workflows quickly and successfully handle changes within projects.
- **Creativity:** create unique and visually appealing solutions.
- **Team player:** able to work effectively in a team, supporting colleagues and contributing to overall success.
- **Analytical thinking:** quickly analyze problems and find optimal solutions.
